

Powerful Environmental Health & Safety Management System (EHSMS) Tool

OneSource Program Quality Verification (PQV) Audit is a proven and powerful safety management tool for assessing a company's Environmental Health & Safety Management Systems (EHSMS). The PQV Audit provides a comprehensive examination of seven (7) elements to determine both the level of maturity and effectiveness of the EHSMS and its procedural compliance. The results generate objective evidence and critical information that **identifies risk** and **prioritizes corrective actions** – all contributing to improving safety program effectiveness, employee morale, productivity, operating efficiency, and financial performance.

OneSource PQV Audit Services

- ✓ Evaluates the effectiveness of Environmental Health & Safety Management Systems.
- ✓ Provides objective evidence of safety program results in support of regulatory compliance.
- ✓ Gauges organization readiness for a Voluntary Protection Program (VPP) audit.
- ✓ Generates corrective actions and 'Risk-Ranks' priorities to reduce/eliminate problems.
- ✓ Benchmarks EH&S results and performance for continuous improvement.

Operating & Financial Benefits

- ✓ Identifies safety issues to increase management awareness and action.
- ✓ Demonstrates management involvement, support, and responsiveness in employee safety.
- ✓ Provides critical and fact-based information for effective decision making.
- ✓ Assesses employee training effectiveness and application of best safety practices.
- ✓ Enables continuous improvement of safety performance across the organization.

*Providing Innovative Safety Solutions That
Protect Our Client's People, Property, and Profit.*

ABOUT US

OneSource EHS is an engineering services company specializing in Environmental, Health, and Safety management solutions. Our diverse team of engineering, technical, and safety professionals has extensive industry and regulatory agency experience in the Chemical, Construction, Manufacturing, and Oil & Gas industries. This experience combined with EH&S best practices creates a **World Class Safety Program** that increases productivity, improves operating efficiency, and reduces risk, liability, and operating costs.

OneSource EHS Benefits:

- Increase employee, contractor, subcontractor, and jobsite safety.
- Reduce and prevent incidents to maintain project schedule and budget.
- Formalize procedures to meet Federal, State, and Local regulatory compliance.
- Improve productivity, operability, stability, and quality of output processes.
- Increase operating efficiency to reduce capital costs and expenses.
